ORGANIZERS

BECEP 2025 CONFERENCE

CONFERENCE OBJECTIVE

The conference will focus on current topics related to transport infrastructure, legislative updates, road safety strategies, future technologies, and education in the field of **BECEP**, in connection with the current goals of the National Road Safety Strategy of the Slovak Republic for the years 2021–2030. The program will feature lectures by renowned experts from Slovakia and abroad, offering space for both professional and informal exchange of experience, as well as the presentation of new insights and initiatives in road management aimed at improving safety on public roads.

CONFERENCE TOPICS

- Trends in Road Traffic Accidents in the Slovak Republic
- Traffic Engineering and Technical Solutions
- Legislation
- Traffic Organization, Regulation, and Management
- Road Tunnels – Legislation, Operation, Maintenance, and Repairs
- Best Practices in Road Safety from the Perspective of Local Governments
