CONFERENCE OBJECTIVE

On the occasion of the 20th anniversary of the international Road Transport Safety conference, the event aims to build on the long-standing tradition of professional meetings and create a prestigious platform for presenting the latest scientific knowledge, research findings, and practical experience in the field of transport safety.

The conference will support professional dialogue between academia, research institutions, public administration, security forces, and industry experts.

The event will focus on knowledge exchange, presentation of innovative solutions, and discussion of current challenges in road safety. The goal is to identify effective measures to reduce traffic accidents and enhance the protection of life and health of all road users.

CONFERENCE TOPICS

- Current trends and challenges in road safety
- Analysis of traffic accidents and identification of risk factors
- Transport infrastructure and its impact on road safety
- Intelligent transport systems and modern technologies in transport
- Use of data, statistics, and digital tools in traffic safety management
- Legislation, transport policy, and strategic road safety management
- Prevention of traffic accidents and education of road users
- Safety of vulnerable road users
- The role of emergency and rescue services in traffic accident response
- The future of mobility and its impact on road safety.

IMPORTANT DATES

- **01 Apr – 30 Apr 2026** **Submission of papers**
- **11 May 2026** **Notification of acceptance**
- **18 May – 21 Aug 2026** **Participant registration**
- **14 Aug 2026** **Submission of final papers and advertisements**
